

Attachments for TCM Forklifts

TCM Forklift Attachments - Forklift trucks are a major player in the material handling field of every international business. Transporting industrial goods happens each and every day on our busy world. First innovated as industrial vehicles in the 1930s in the U.S., forklifts gained recognition after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread internationally.

Initially started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first lift truck. Over the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation in the trade. TCM began building lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes various models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products used and recognized all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading company.
