

Barrel Clamp

Barrel Clamps - Called "Barrel Clamp", this particular hydraulic accessory is actually used on lift trucks in order to clutch objects which you would like to transfer using the lift truck. Typically, they are utilized in order to handle kegs, paper rolls and barrels, together with some barrel clamp designs having the ability to rotate the cargo. For instance, the revolving function enables the one operating the forklift to be able to put in a vertically stored paper inside the horizontal intake of a printing press.
